Allied Oil

from present earnings which are at the rate of \$3,000,000 per year, pays a dividend of 3% quarterly.

Allied Oil owns 85,000 acres of largely proven oil and gas territory.

Allied Oil has pipe line construction now well under way which will afford large additional earnings from gas.

Allied Oil from every viewpoint is a most logical investment.

Detailed information sent on request.

Investors' Almanac

CALL—A contract which gives the possessor the right to demand from the party signing the same, a certain amount of stock, grain or other commodity at a named price during the time stated in the contract. Money and investments.

Questions and Answers

Notes—In this department, The Tribune will publish questions and answers on the investment problems of its readers. It cannot undertake to give advice on speculation, questions of general interest will be answered. Other questions will be answered only when they are of general interest. Address all questions, including a stamped addressed envelope, to FINANCIAL EDITOR, The Tribune, 151 Nassau Street, New York City.

Question—Referring to your answer in re Interborough Rapid Transit bonds, you say, "the bonds are a first lien subject to the city's interest in the property." I was under the impression that the bonds were unqualifiedly first lien without regard to any interest of the city or any other interest. May I please ask you to outline what the amount of the city's interest is?—W. W. C.

Answer—Interborough Rapid Transit refunding 5 per cent bonds are secured by a first lien on leasehold interest of the company in Broadway and Lenox Avenue subways and Brooklyn subways which leases extend beyond 1979 and 1960, respectively, and in 999-year lease of Manhattan Railway. Are further secured by a first lien on contracts with city providing for operation of 147 miles of additional subway track and 21 miles of elevated track. Further secured by a first lien on all power houses and equipment used in operation of subways, but subject to lien of the city to assure performance of terms of lease. Under contract company is entitled to receive an amount estimated at \$11,700,000, after which city will receive 8.75 per cent on money (\$866,000,000) which it will invest in subways. After this both share equally.

Question—For some time I have been holding fifty shares each of the following stocks: Advance-Rumely, Gaton, Williams & Wignmore and Ohio Cities Gas. Would greatly appreciate it if you would give me such information as you have on the above also advisability of selling now or holding until some time when they cost less. F. A. D.

Answer—Advance-Rumely Company has shown considerable improvement in earnings of late, so we are informed. Sales of company for first five months of 1919 were reported as \$8,500,000, against \$4,500,000 for same period in 1918, and more than entire sales for year 1918. There is a large demand for agricultural machinery at present from all over world. Much depends upon course of foreign trade in future, so far as Gaton, Williams & Wignmore is concerned. This company, which reduced its dividend rate from \$4 per annum to \$2 recently, is now said to be showing larger earnings. Company operates eighteen ships, from one of which it is said to have earned \$125,000 in a single month. Company lost money during the war on its Russian contracts, but this amount is supposed to have been written off. Ohio Cities Gas, par value of which is \$20, is expanding largely, and affairs of the company appear to be in good shape. Indicated earnings on common stock for year ending March 31, 1919, were at rate of 24.00 per cent, against 20.00 per cent to 16 per cent, or \$4 per annum, reduced dividend last April from 20 per cent to 16 per cent on \$4 per annum. But we cannot guide you so far as course of stock market is concerned. All three issues are speculative, and while earnings might show better than heretofore, so many influences are brought to bear that no one can say positively whether or not a stock had seen its highest level.

Question—I have heard that the earnings of William Farrell & Son stock on the early amount to \$2,500,000 a month. Will you favor a reader with your opinion of this common stock, its possible future and worth and truth of statement or net earnings? I am contemplating the purchase of a number of shares outright. W. R. M.

Answer—As this company was organized only last June, and as no official report of earnings has been published, we cannot verify your information as to earnings; but we are informed that earnings are greater than original estimates. Preferred stock has been well cleared, and common part of which was bonus, has not as yet been sufficiently distributed to cause an active market.

Question—Please give best opinion of following stocks on early North American Pulp and Paper, United Profit Sharing.

Answer—North American Pulp and Paper, which reported net earnings for the year 1918 of but \$33,000, is now said to be earning better, owing to higher prices for pulp prevailing in Canada. Officials report also some improvement in earnings of public utility companies as a result of more efficient methods. It would appear that future for this company is more promising. Earnings of United Profit Sharing Corporation are better than heretofore, an annual dividend of 5 per cent having been declared last May, in addition to regular semi-annual dividend of 5 per cent. But stock is slow and you might have a long wait for much profit.

Announcement

We desire to announce that we have this date formed a partnership under the firm name of

Gengler & Fransioli,

REPUBLIC OF NICARAGUA
STERLING LOAN OF 1909

The Council of Finance and Commerce of the Republic of Nicaragua has decided to pay off at par on and after the 1st of November 1919 the balance of Sterling Bonds (including Fractional Certificates) issued in 1909 of \$1,000,000. It has been decided that the balance of the Bonds and Fractional Certificates issued in 1909, with interest at 6 per cent per annum, shall be paid on the 1st of October, 1919, and the balance of the Bonds and Fractional Certificates issued in 1909, with interest at 6 per cent per annum, shall be paid on the 1st of October, 1919, and the balance of the Bonds and Fractional Certificates issued in 1909, with interest at 6 per cent per annum, shall be paid on the 1st of October, 1919.

Plans can be obtained on application, from J. D. GENGLER, Secretary, 25 Broad Street, New York City.

DIVIDEND NOTICES

THE FAIRBANKS COMPANY.

The Board of Directors has declared the dividend on the preferred stock of the company payable on the first day of November 1919, at the rate of 5 per cent per annum on the basis of the paid-up capital of \$1,000,000. The dividend will be paid in cash to the holders of the stock on the first day of November 1919.

J. D. GENGLER, Secretary, 25 Broad Street, New York City.

Ford Motor Bills
Renewed at 5 1/4 P. C.Interest Rate Lowered on \$50-
000,000 Issue; \$10,000,000
000 Retired

The Ford Motor Company yesterday renewed for three months \$50,000,000 of notes on a straight 5 1/4 per cent discount basis. The remaining \$10,000,000 was paid off in cash.

The renewal was arranged on the basis of a reduction of a full 1/4 per cent in the discount rate, the notes having been originally sold last July at 5 1/2 per cent. The prevailing rate for prime commercial paper at that time.

Announcement that the renewal of the Ford bills had been negotiated at a substantial reduction from the interest rate of last July, coming at a time when call money at the Stock Exchange had been ruling at abnormally high interest rates, aroused considerable comment in Wall Street circles.

The renewal rate on stock market bonds yesterday went to 10 per cent, a slight rise since last July. All the call loans made during the day were placed at that figure, and offerings of money for stock market purposes by the banks were scanty.

Bankers accounted for the decreased supply of call money by the recent heavy transfers of funds to the interior for crop-moving purposes. In one week alone recently more than \$100,000,000 of funds held on deposit with New York banks by interior institutions was withdrawn in order to check the rising wave of speculation.

According to a Wall Street estimate, the total of loans of Stock Exchange houses with the banks approximates \$1,500,000,000, an expansion of \$200,000,000 from the figures of about a month ago.

Dividends
Extras
Ludlow Manufacturing Associates—In addition to regular quarterly dividend of \$1.00 per share, payable on same dates as regular dividends, the company has declared a special dividend of \$1.00 per share, payable on same dates as regular dividends.

Republic Oil and Refining Company—An extra dividend of 10 per cent has been declared, payable on same dates as regular dividends.
